My Story

Shiven

★ I am in existence!

It was a sunny afternoon on 18 March 2010, and a bundle of joy none other than me, was in existence. Yes, myself, Shiven Sood, was born on this day. I was born in the place of religions, Mumbai. My family, including my dad, sister who hates me currently, my lovely grandmother and grandfather were tremendously curious to know how I looked, and I was a boy or a girl. Later than, I came out of the operation theater! My whole family was extremely contented to see me, as I was and am very cute. Luckily, my brave mother, Shamli Sood, was safe after the delivery. My grandmother was the first one to pick me up after the nurse, obviously. My father was so happy to see me, that he cheerfully picked me up in his arms and exclaimed, "I love you very much!" My sister, Sonakshi Sood had just come from the school of future leaders, and she was delighted to see me. Fortunately, I was a very healthy baby, unlike others.

★ Starting a new phase of life.

After a period of time, I was discharged from the, "Shivani hospital". It was a new life, new people, new personalities, etc. A fun fact is that I was the first boy in my family after 9 years. As my family originates from the religion, "Punjabi", they went to a gurudwara first, to thank the creators for giving me. After visiting the gurudwara, we went to our home, "Natraj building", it was all new for me, everyone were crowding near me, I was actually scared as I didn't know what was going on.

When I was 21 days, my parents took me to a gurudwara, so I could get my name set. I was named Shiven Sood! My parents also organised a langar in the gurudwara, marking my occasion of, “नाम कर्ण”.

Scarily and fearfully, I had to take some vaccinations, as the doctor prescribed, it were the worst moments of my life as I am extremely scared of injections, just like other babies.

★ Freedom!

It was freedom! No one to interrupt, no one to correct, no responsibilities, no tensions, no scoldings and not much healthy food! In my childhood there was full freedom, and full fun. Everyone used to get delighted when I smiled or talked as I was prodigiously endearing. Though all the freedom, fun and stress relieve, it was pretty boring for me, because I had to sleep all day. I started to perceive the world from my perspectives and took my actions according to them. I said my first word, “papa” when I was about 8 months.

My father left Mumbai, as he had to keep up with his job of a merchant navy captain. The best part of being an infant was that, everyone used to pamper me a lot so I never felt alone.

My mother thought I would be left out in my academic performance, consequently, she acquired me to do some drawings, listen to stories and learn some basic etiquettes.

★ Enrolling into the life of liabilities.

It was time for me to join playgroup, so I could surpass further in life. In 2013 I was enrolled into CAD, a phrontistery for growing children. I learned numerous manners, grooming ways and participated in many activities also. I do have some embarrassing memories with playgroup, I don't want to recall. I met one of my current friend Venil in playgroup for the first time and he is my mate till now. CAD was just the starting but when I kept growing up, I had more liabilities.

Goodness! My father thought that family is more important than his job, so he left the job of a captain, but works in the same company as a general manager. This decision of my dad was the best that could happen to us as I would get some quality time to spend with my dad. As I said that CAD was just a starting, after one year in 2014, my parents made me enroll into the school of future leaders, NESISM. This school because it includes all contents needed in future, prepares children to become leaders of the future, solves problems prudently and imbibes all the learner profiles and attributes.

I met new teachers, students and a new phase of life. I came across many teachers and friends, who encouraged me every step I took, such as Priyanka ma'am, Laxmi ma'am, Pratyush, Vivaan, Kayaan, Falguni ma'am, Namrata ma'am, Preety ma'am, Kirti ma'am, Sugumar Sir and Dhvani ma'am.

★ Journey in NESISM.

The journey in NESISM was tremendously challenging, as there was a lot of competition. I discovered that I am a great inquirer, and this ability helps me grasp concepts more clear, in fact, I imbibe all of the learner profiles. I was consistently eager to go to school as greatness awaited. My brain used to brainstorm a lot of questions and I was very curious to find the answer to them, so I consistently kept asking questions to my encouraging teachers. My tasks reflect my dedication and sincerity towards them.

I participated in many competitions and functions, where I performed dances, executed dramas, sang melodically, etc. I won many awards for my performances and continued to do so, but I didn't perform for my awards, I performed because I felt good when I did.

The school gave me an experience of what it would be when I grow up. The amazing part is that the school also focused on counselling, so it gave counselling sessions to the classes once in a week, this enabled me to handle my emotions and imbibe the 5 competencies of emotional intelligence.

My journey in NESISM, is still left, so I'd take this opportunity to gain as much of knowledge I can.

★ Heading towards Adolescence!

I am 10 years currently, and I am only a few years away from adolescence. Fortunately, The syllabus of 5th grade in NESISM, contains Puberty (adolescence), so I and my enthusiastic class is been taught about puberty, getting aware of adolescence is great because I am going to suffer from it, and knowing how we'll change and develop cognitively, physically, emotionally and socially in adolescence is fantastic. Honestly, I do see some changes that are occurring in me and they are showing that puberty has began in me, such as behavioral changes, wrinkles, height growth, change in choices of friends, and changes in decision making.

I will claim a lot of responsibilities as I keep growing up, which will be difficult to handle, if I won't learn how to handle them.

I don't know what will happen in the future, so till then I think I'll be mindful, and enjoy the present moment.

★ Corona pandemic?

On 25 March 2020 something which hadn't happened in years had occurred, the Government of India under Prime Minister Narendra Modi ordered a nationwide lockdown. It was a tremendously huge change for me, in fact for the whole nation. This lockdown was caused due to the evil Corona virus which originates from China. Everything was closed, no one could step out of their houses.

This lockdown even affected me as it restricted the children all over the globe including me to stop going to schools, which stopped our learning process. Luckily, some genius thought of studying online through the Zoom app, founded by Eric Yuan. This platform of learning, was an enormous change. On the positive side, this was a new experience for me. It took me some to adjust, but I did after a while. Unluckily, as I am on technology the whole time for study purpose, I must wear anti-glare specs, to keep my eyes safe. The lockdown is still taking place, and it is stabilizing slowly and steadily, I do go down to play once in a week , to keep myself fresh, but I do take all the precautions to keep myself safe from the coronavirus.

★ Traits and accomplishments-

Until now, I have accomplished numerous challenges, goals, dreams and objectives. I don't imbibe inflated self-esteem, I don't imbibe over confidence, but I imbibe that parents, friends, creators and teachers are the pillars behind a successful imperfect. Let me tell you some traits and accomplishments I possess.

1. Cultural fest-1st prize (Dance-solo).
2. Outstanding student movement project-Outstanding student leader of the year.
3. All India open Mathematics scholarship examination-rupees 200 (ranked 227/3605).

1. Rotary youth football championship-team Rising Stars (boys, under10).
2. 4 feet 11 inches-recessive trait.
3. Right thumb comes up when fold both of my hands-recessive trait.
4. Can perform 50 claps in a minute-recessive trait.
5. NES National Science Fest-1st prize
6. Prize from Shiven Sood, for making masterpiece paintings (goal accomplished)
7. Sincerity and dedication-recessive trait

★ **Future plans(goals) and dreams-**

I am a child and don't know the world outside clearly, but from what I know, I have some goals and dreams I want to achieve. Behind each dream, I have a reason for it, and I'd do anything to make them come true.

1. Become a neurologist: Well, in simple words, a neurologist is a special physician who diagnoses and treats conditions of a brain, spinal cord and nerves. I want to grow and become a neurologist for I anticipate that there is a significant reason behind how does a body work. I want to become a neurologist also because I want to save lives of the people who deserve to live. I know that being a Doctor is not easy at all as the doctor has a save or die option in front of him/her when treating someone. Yes, a lot of studying is also required to become a medical practitioner, but remember hard work bears sweet fruit.
2. Practice being mindful and balanced: Nowadays, it has been difficult for me to spend some quality time with my family as been studying for the upcoming assignments. I will plan a to do list for each day, which will keep me organized and enable me to be mindful with what I am doing.

3. Continue taking precautions: I still must take precautions from Covid-19, because it can effect me and would take my precious gift (life) away.

★ My Principles-

Long story short, I imbibe all the learner profiles as they, play a very important role in a successful human's life. I as well as listen to other's perspectives, as understanding others point of view helps me grasp concepts clearer. One of my most important principle is to respect everyone and never let overconfidence arise in me. I know that perfection is a myth, so it's good to accept failures and learn from them, but pushing yourself to doing the best is also very salient. I must follow each and every principles, so it moulds me into a better person. These principles make me a good person.

★ My Attitudes-

I appreciate various attitudes, such as appreciation, enthusiasm, respect, independence, cooperation, commitment, confidence, empathy, curiosity and creativity.

Let me interpret you some of the attitudes, I emulate.

1. Appreciation: I present gratitude for everything I have gotten, as there are multiple people and animals who don't get their basic needs and rights. I am lucky I have been gifted with this luxury, helpful relatives and parents who fulfil each and every wish of mine.
2. Curiosity: I get extremely inquisitive when I am learning something or want to grasp something deeper.
3. Confidence: I am invariably confident to perform a task, but if there is some tremendously dangerous task, I would probably perform it in a trusted adult's guidance.

4. Enthusiasm: I interact with extreme enthusiasm in classes or any activity conducted, as it engages the host and he/she also feels happy, as a result the host interacts with more enthusiasm than ever.
5. Commitment: I finish everything I start, and it reflects that I make commitments which I finish **most** of the time.
6. Empathy: My this ability helps me to think how would it be if I was someone else (putting myself in someone's shoes) and show sympathy towards them .

★ My contribution to school-

Until now, I have practiced many contributions for the school. If the school can do so much for me, than why can't I make some contributions for the school? Here are some contributions I have presented for the school.

1. Contests: I participated and participate in many tournaments on behalf of the school. I participate because I desperately want our school's name to rise, and I want myself to stay fit.
2. Regular help: I regularly help my teachers and my fellow classmates as it is my duty to do so. Giving my friends notes, telling my classmates to keep silence and calling the housekeepers when some issue in the class's cleanliness occurs, are some helps I perform in the class.
3. Enthusiastic learner: I interacted in the class actively, which kept the teacher engaged and not bored. I gave the class many new found knowledges, which enabled my fellow classmates to grasp the concept more clear.
4. Participation: I participate in many cultural fests and celebrations, where I dance and sing happily. Everyone's participation especially including my, makes the program complete and memorable.

★ My contribution to society-

I play my role in my building as a student aptly. I do everything to keep my society safe, beautiful and a good place to live, but even I have some limits I cannot cross as a child.

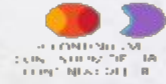

Let me tell you some contributions, I make as a child in my society, Runwal Anthurium.

1. **Prevent Bullying:** Honestly, there are many bullies (teenagers) in my building, and they are consistently ready to bully a pre-teen. I prevent bullying by conducting small campaigns with my friends, against bullies, these campaigns give birth to fear in the bullies and slowly, they stop bullying children.
2. **Volunteer:** I volunteer in programs and occasions conducted by our building. I help in small works such as seeing everything is working properly, maintaining a to do list and distributing prizes. Me doing these small works, increases the chances of a program becoming perfect.
3. **Spread Awareness:** As I am a child, I cannot do much, but I try my best. I spread awareness on many small objectives, such as don't litter garbage on the society, close water taps, switch of the light if not using and plant trees instead of cutting them if not required.
4. **Avoid mistakes:** Nowadays, many people forget to switch off the lights, close the taps, switch off the switches, etc. As I said I conduct campaigns, I follow these rules strictly at home also. I personally check that the lights are off, water taps are close, fridge is closed, and switches are off, if not in use.

My Story

Samarth

★ Introduction (basic information about yourself, family and friends)-

My name is Samarth Agarwal and I am 10 years old. I was born in Kolkata West Bengal and my family includes my mother, father and grandparents.

★ Early childhood-

- Infancy (2 months- 1 year)

I and my family except my father lived in Kolkata in the famous district of Howrah. My father had a job in Mumbai. We had a huge party when I was born which included all my relatives both from Kolkata as well as other states in India.

★ Early childhood-

- Toddler (1 - 4 years)

When I turned into a toddler my whole family moved to Navi Mumbai except my grandparents and as my mother also had a job I lived in a day-care. After several months my grandparents also shifted so I lived in my house instead of the day-care.

★ Early childhood-

- Heading towards adolescence (10 -19 years)

I studied in Goldcrest High School and went to Kolkata where I had my friends waiting for me. While this time I hated cricket as the boys in my society didn't allow me to bat but I was comfortable with football. When I was in Grade 4 me and my family shifted to Mumbai and changed my school to NES International School but I did not have any trouble to adapt there and my favourite sports and subjects preferences changed.

★ Traits and accomplishments-

I have participated in many SOF exams and most of the time won a medal. I have even participated in local competitions like a drawing competition and won many medals and certificates.

★ Future plans(goals) and dreams-

I have thought of being an astronomer or an engineer but I am not sure. I want to be ideal in cricket and football.

★ My Principles-

To maintain hygiene and keep ourselves and surroundings neat and clean. Do not waste food, water and electricity.

Set the goals and always aim to achieve the same but do not get disappointed if not achieved. Keep on trying!!

Always be helpful and concerned for family and friends

Remain in regular touch with near and dear ones

Always be in jolly mood and create positive environment near you

★ My Attitudes-

I stay cool most of the time and try to sort out things calmly. If I fell in a fight or see someone fighting then I try to calm them down too and ask them what's the matter.

★ My contribution to school-

I am new so I have not done much but participated in the SVB-Group.

★ My contribution to society-

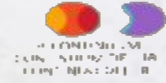

I am staying in my home in these dangerous times of Covid-19 so that I can stay safe and everybody else can stay safe too.

We donate leftover food and do not waste it and save electricity because most of it is generated from non-renewable sources.

My Story

Tvisha

★ Introduction (basic information about yourself, family and friends)-

My name is Tvisha Vinod and I am 9 years old. I have 6 members in my family. Me, my brother, my mother, my father, grandfather and grandmother. I study in NES International School. My parents' names are Aarti Vinod and Vinod Rajan.

★ Early childhood-

- Infancy (2 months to 1 year)

I was born on 14th January 2011 on the auspicious day of Makar Sankranti. I was born in Chembur, Mumbai. My parents named me Tvisha which in Sanskrit means brightness of sunlight. I had a normal childhood living Bhandup, Mumbai.

★ Early childhood-

- Toddler (1 - 4 years)

As a toddler I started going to play school. The play school's name was CAD. There were many activities. I stayed there till afternoon. We played many games in the play school. My grandmother used to pick me up from the bus. I used to eat lunch there only. They used to teach me new things.

★ Early childhood-

- Preschooler (5 - 9 years)

When I was 5 years my brother named Avyukt was born. I joined NES International School and it was very fun to be studying in Reception. I learnt to write alphabets and three letter words. We had many activities and games that time. Then I moved to Foundation. I learnt to write big words and small sentences that time. Foundation was fun just like Reception.

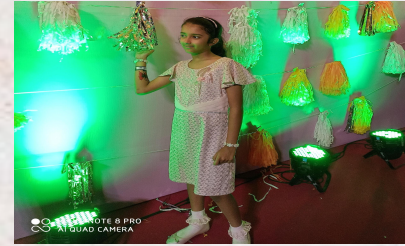

★ Early childhood-

- Preschooler (5 - 9 years)

Afterwards I moved to Grade 1 and it was fun. We had homework and assessments. Then I moved to Grade 2 and we had many assessments in UOI. I liked them and got used to them. Next I came to Grade 3. It was fun in Grade 3. We learnt many new things. We had many projects. Afterwards I moved to Grade 4. There were many assessments in Grade 4 and we had to make a biodiversity project which was little difficult

★ Traits and accomplishments-

My biggest accomplishments were that I got the Outstanding Students Award Level 1. I had come second in Science Exhibition. I had also come second in Science Olympiad. I had come first class in my Music exam.

★ Future plans(goals) and dreams-

My goal is to finish my studies and get good academics. I also want to become an Environment Activist in the United Nations.

★ My Principles-

My principles are that I stay quiet and only talk when it is necessary. I raise my hand when I want a chance to speak. I like to follow all rules. I do my work on time. I do my work properly. I listen to others perspective and then decide. I concentrate in my work.

★ My Attitudes-

I am Caring to others because I care for everyone in the society. I am Knowledgeable. I am Open-Minded because I see everyone with the same eyes. I am an Inquirer because I ask a lot of questions. I am a Thinker. I am a Principled because I do what is right. I am a Risk- Taker because I try new things. I am Communicative. I am a Reflective person because I reflect on the new things that I have learnt.

★ My contribution to school-

I contributed to the school by help maintaining discipline in the school when I was the class captain. I obey all the rules in school. I spread awareness on 14th SDG – Life below water. I wrote two news articles in the blog that our school had created.

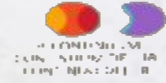

★ My contribution to society-

My contribution to the society was that I planted a sapling as I care for the environment. I also spread awareness on the 14th SDG goal – Life Below Water.

- IB Continuum World School

My Story

Harsh

★ Introduction (basic information about yourself, family and friends)-

My name is Harsh Kothari. I am ten years old . I study in NES International school Mumbai. My father's name is Rishi Kothari and my mothers name is Ankita Kothari, my sister's name is Moksha Kothari. I study in 5th standard. I have many friends in my school .Few of them our Ryan, Rehaan, Veer, Nairit and many more. I am very good at sports and my favourite sport is football and running. My inspiration in my life is Steve Jobs. My Favourite subjects are Science, Math and UOI.

★ Early childhood-

- Infancy (2 months- 1 year)

During these years I just knew how to crawl and walk. I talked in like a gibberish language and I loved playing with everyone in my family. I most of the used to lay with my elder sister Urja. My photo is down there at that age.

★ Early childhood-

- Toddler (1 - 4 years)

At this age I was able to run and talk properly. Now I was in the preoperational stage where I could do most of the things except of thinking logically I then was in school and I enjoyed the school since I was the captain of the class which made me feel proud, I used to complete my homework and go at my society garden and play with my friends. I got all All-rounder awards in school until my EYP was over.

★ Early childhood-

- Heading towards adolescence (10 -19 years)

Now is my current moment I am old enough to do my work in school, I am in 5th grade and the thing is I am studying from home because there is a very dangerous pandemic. I am now smart enough to do my work and I also got my OSM awards I am in Level- 2 and I am aiming to reach the other level. I love my school work. After school is over I study science in science I study Physics which is what I do. I even make circuits from my kit given to me from my dad. When it is my free time I either read or play I and I have a lot of opportunities at this time

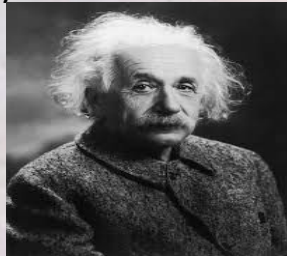

★ Traits and accomplishments-

I have won the Master EYP award. I have won the karate championship award. I have won the the Science award. I have also won the OSM awards. I have also won medals for sports and Olympiad Exam. I have won a gold medal for solving a cube. I have got a certificate for coding. My fingerprints are loop and whorl.

I have won another science contest which is my favourite.

★ Future plans(goals) and dreams-

When I want to grow up I want to become a physicist since I am interested in science and in science love physics. I have been inspired by Albert Einstein.. My short term goal is to get the OSM level-3.

★ My Principles-

I am Caring for others.

I am a Risk Taker.

I am Knowledgeable.

I am an Inquirer.

★ My Attitudes-

I am confident since I speak well and I have Confidence.

I am Respectful since I respect others.

I am Curious so I am in category of Curiosity.

I am Integrity because I believe in fair things.

★ My contribution to school-

During Diwali we decorated the school. Won the NES-SVB sports competition. By sharing and caring with everyone in the nearby society.

★ My contribution to society-

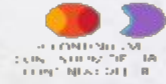

I have made poster for awareness on the topics “save water”, “parking on road” and many more things.

I have cleaned my society and made it very beautiful. I have supported the good all times. Helping in any type of problems faced by anyone.

My Story

Arpita

★ Introduction (basic information about yourself, family and friends)-

Hi this is Arpita. I was born in Islampur, India in a family of 4, my mother's name is Shital Chougule, father's is Rajesh Chougule and my brother's name is Aditya Chougule. I have 4 cousin brothers and 4 cousin sisters and I am the youngest all.

★ Early childhood-

- Infancy (2 months- 1 year)

I had a wonderful early childhood with my friends and siblings, playing for hours but, the best activity for me was gymnastics. Yes, you are right I started doing gymnastics very early and still fond of it. I was extremely adventurous those days climbing mountains with the help of my parents, going through obstacles in let's play, Decathlon.

★ Early childhood-

- Toddler (1 - 4 years)

It was my 1st birthday and I was very excited having my friends and siblings with me, and the best part was the glow sticks it was dark and I was wearing glow sticks all around me, while everyone was wearing glow stick bracelets and necklaces, I was just having a gala time!! In the age of 3 I decided to be an actress which is still my dream, but, also wanted to be a gymnast.

★ Early childhood-

- Heading towards adolescence (10 -19 years)

Today heading towards adolescence I am very confident and having a ton of experience than being a toddler, today I am when I think of it, I want to be an actress, gymnast and an enterpriner. I am very thrilled to go to 6th grade!! And I am very delighted to have more responsibility and reliability.

★ Traits and accomplishments-

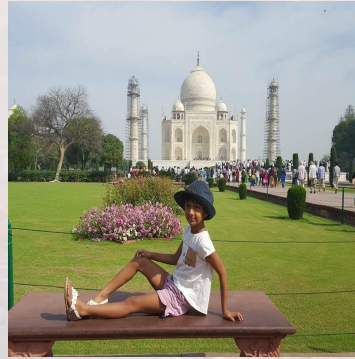

- Giving great presentations.
- Being organised.
- Having a chance to walk on moon.
- Having a flexible body.

★ Future plans(goals) and dreams-

- To be an actress, entrepreneur and gymnast.
- Travel all around the world.
- Meeting Modi ji.

★ My Principles-

- Learning and development follow sequences.
- Development and learning proceed at varying rates.
- Development and learning result from an interaction of maturation and experience.

★ My Attitudes-

I am kind & caring to the people I talk to, and keep attention to the person who is talking, I make sure I understand what the person is saying.

★ My contribution to school-

- My father took PTA meetings to make our School better!!
- I participated in all sports activities.
- I put my 2 books in the class library so, everybody can read it.
- Last year in 4th grade I helped ma'am clean the class.

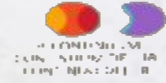

★ My contribution to society-

- I planted 2 plants in our society garden.
- As a part of a society I made sure everyone is happy and I talk to all elderly people.
- I made sure I do not litter our environment and put all things in the right place.

NES International School Mumbai
- IB Continuum World School

My Story

Ayaan

★ Introduction (basic information about yourself, family and friends)-

My name is Ayaan Dogra and I am 10 years old my hobbies are to play sports and play fun games and enjoy! I study in the 5th grade in NESISM in mumbai,maharashtra,India. In my family I live with my mum and dad. I also have cousins from north of India and my grandparents from north India and South India I have many friends and they all are very kind to me.

★ Early childhood-

- Infancy (2 months- 1 year)

I was born on 21st of march 2010 in The Netherlands, the country below sea level and famous for it' windmills , cheese ,clogs and dykes. . Then few months later we moved back to Mumbai and I continued to live with my parents and my grandparents. At that time our new home was being constructed. I had lots of fun with my grandparents.

★ Early childhood-

- Toddler (1 - 4 years)

- In October 2011 when I was 1 ½ years old, we moved to our new
- Home. It was a nice, beautiful place where I made new friends with whom I would play on te swings and slides every evening had my own very colorful room full of toys and games.
- In mid 2012 my father got an official assignment and we all moved back to Amsterdam , the city where I was born, I had started speaking, running, and made some international friends at Hestia, my daycare and I had a great time exploring the parks, countryside and seashores I also attended some interesting local cultural events and watched my first movie in the theatre the movie, “Planes” by Disney. In mid 2014 we moved again to Stockholm, the most beautiful capital city in the world.

★ Early childhood-

- Heading towards early childhood (5-9 years)

I was a big boy now and I joined a school called “Humpty Dumpty” Where I started learning new skills, sports and language. Stockholm is famous for its natural beauty and we would enjoy our weekends at parks, playgrounds and have fun in a sand pit right next to my home. By the end of 2014 we had to say goodbye to Stockholm and move to another beautiful city Copenhagen in Denmark. There I joined Copenhagen International School and later moved to Osterbro International School an IB school. This is where I made a lot of friends and started going to my friend’s birthday parties.

I celebrated my 5th and 6th birthday with my friends. I had made a new best friend called Maciej who was from Poland and we had lots of fun playing together. Here in Copenhagen there is a world –famous amusement park called “Tivoli” where I would spend my weekends playing and enjoying various rides . I also had the opportunity of visiting Malaga, Spain during our stay in Copenhagen. Malaga still remains to be my favourite tourist destination especially the tasty vegetable soup I used to enjoy there. While I enjoyed the beaches, I was always scared of the crabs. My father used to tell me that the crabs army has been following me throughout Europe. Our home was right next to a large public park where I would cycle, run, eat and enjoyed the cultural programs. In mid 2016 we moved back to Mumbai and that started a very interesting and different phase of my childhood when I joined NES international school . On my first day of school I was very scared and nervous where to go, what to do and such thoughts came in my mind..

I did not know how to speak Hindi at all, Indian cultures and traditions, it took me some time to make new friends and an even longer time to speak Hindi with them. On the Bright Side the street food was really amazing and tasty. Exploring Mumbai's Landmarks and overnight camping with my friends and family, playdates, sleepovers made me very happy. It was also easy to visit my grandparents and for them to visit us, this is where I learnt proper cycling, karate, skating but swimming continues to scare me. The best part of being in Mumbai is the festive season from August till end of year. This brings the whole society together. Ganesh Chaturthi, Navratri and Christmas are full of fun and warmth. I learnt a lot about our culture and festivals. I celebrated my 7th, 8th and 9th Birthday with my school and society friends and made great memories. My NES School bus ride and studying at School is very exciting and always look forward to the School events and celebrations.

★ Early childhood-

- Heading towards adolescence (10 -19 years)

So I was eagerly waiting for my 10th birthday and we had started making plans bought gifts until the Coronavirus hit the entire world. I had to cancel my birthday celebration and the whole world gradually went into The Pandemic. But I did have a mini celebration with my family members and I got really awesome gifts from my family members. There was panic everywhere, Lockdown everywhere, famous people getting Covid +ve and deaths rising everyday due to this new virus. Count of affected people increasing everyday without any cure in sight. Due to worsening condition of Coronavirus situation in Mumbai, I moved to my grandparents place in Jammu, where there are very less Coronavirus cases and we have a big house to walk around and play safely. I am enjoying tasty food, walk in the garden and I feel so happy breathing fresh air and play games like football and cricket. It is like a Paradise which has all the things that I like. Later I had also visited a popular hill station on the outskirts of Jammu.

★ Traits and accomplishments-

- Over the years my friends and family tell me that I am a very friendly and caring child.
- I continue to learn and focus on my studies but sometimes I get distracted by video-games and devices my father and I are working to reduce the digital addiction.
- I am a foodie and I can't wait for coronavirus to end and explore our country.
- My achievements are that I have won an OSM award
- I have won sports medals, karate- Best player
- In Karate I won medals at state level and national level
- I have won medals in the SOF olympiads
- I love video editing and I even created my own youtube channel called "alpha hawk 747"

★ Future plans(goals) and dreams-

I want to become a lego engineer, be principled, kind and co-operative.

★ My Principles-

- I will respect my friends.
- I will always respect my parents.
- I will always be discipline and kind.

★ My Attitudes-

- I am kind.
- I am fun to play with.
- I am communicative.
- I like to be fun.

★ **My contribution to school-**

I have helped the teachers in distributing the books and I help the music teachers to help carry the instruments sometimes.

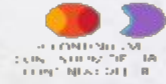

★ **My contribution to society-**

I have planted plants and a tree and if someone is throwing a wrapper on the floor I tell them to throw it in the dustbin.

My Story

Vedant

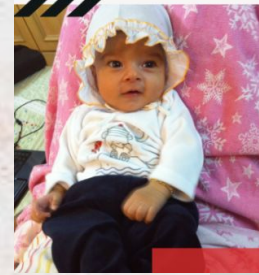

★ All about me-

Hola amigos, my name is Vedant Ramani and I am 10 years old boy from Mumbai. I was born on 2nd September, 2010. My blood group is B positive and it is also the mantra of my life. I really love architecture and I am the biggest spiderman fan ever. I love spiderman so much that I am known as spidey nerd. I love my family and they are the best family members you could ever wish for.

★ Early childhood (Sensorimotor stage- infancy)

I was born on 2nd September 2010 and the hospital's name in which I was born was Ganatara Hospital. The first person who could get their eyes on me was my nani. I told my first word in the eleventh month which was mama. I also started walking the same month.

★ Early childhood (Sensorimotor and Preoperational stage- toddler)-

The first school which I went was Euro Kids. During this time, I started exploring stuffs beyond my body. My first trip was to Dubai.

★ Early childhood (Concrete operational stage and formal operational stage- heading towards adolescence)

Right now I am 10 years old and stuck at home. This year, a virus named Corona has locked almost the whole world in. The virus has come from China, Wuhan. This whole year was ruined because of pandemic!!!! Because of Corona, I trip got cancelled and now we are all stuck at home. I miss the good old days. Nowadays, everything relies on internet. In lockdown, I have learnt many new skills like helping around the house and many other things.

★ **My traits and achievements-**

I am creative, knowledgeable, caring and always positive. The accomplishments include: Sports Day, Karate and Annual Day trophies.

★ **My principles and attitudes-**

I am caring, honest, optimistic, confident, hilarious and active.
I have a positive attitude towards everything.

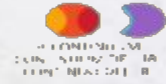

★ **My contribution to school and society-**

I have contributed to my school by being an ideal student.
I have contributed to society by educating others about health and informing them about our environment.

My Story

Siddharth

★ Introduction (basic information about yourself, family and friends)-

Hello everyone, my name is Siddharth.S and this is the basic information you need to know about me.

I am very artistic. I am a very serious foodie. I am a lego addict

★ Early childhood-

- Infancy (2 months- 1 year)

- As far as I have heard, I used to be a very naughty boy.
- I used to jump a lot.
- I used to sleep a lot which almost every baby does.
- I was a chubby little baby.
- I loved wheels on the bus rhyme.
- I loved sleeping on my grandfather's lap and never let him move.

★ Early childhood-

- Toddler (1 - 4 years)

- I used to ride my brother like he was a horse and I am a cowboy.
- I loved making my brother cry which I was not aware of.
- I started my school and loved my kindergarten.
- Never liked riding bus to school.
- Fresh fruits were my favourite.

★ Early childhood-

- Heading towards adolescence (10 -19 years)

This is the most important and exciting period of my life.

I have explored many places and experienced adventures which I never thought I could like zip lining, trekking, wildlife safari, glacier walking, etc..

I made many friends with whom I love spending time.

I found my interest on pencil sketching and I doing extremely good in the same.

★ Traits and accomplishments-

I was made a class captain for some time last year to maintain the discipline and I did it in a fun way which everyone liked. I started drawing two years back and last year I made a style of art which was a big hit in my class. (blockheads pencil sketching art). I got outstanding student movement award for past three years. I am a boy of scientific temper and at the same time I believe in our Indian traditions and culture. I felt accomplished when I trekked “living root double bridge tree” in Meghalaya which took around 6 hours, trekked “Tikona fort” which needed advanced trekking skills and stamina.

★ Future plans(goals) and dreams-

I want to do Large scale organic farming in a scientific manner so that I can increase the productivity. I love periodic table so if possible I really want to invent a new element and include that in the periodic table. I contribute to the welfare of the society by creating jobs for more people and contribute to the eradication of poverty. I want to include art as part of my life.

★ My Principles-

- Hardworking
- Honest
- Simple and humble
- Kind and sweet
- Icebreaker
- Respectful

★ My Attitudes-

- I am optimistic.
- I am very confident.
- I am supportive.
- I love teamwork.
- I am sometimes lazy
- I am adventurous too.

★ My contribution to school-

I am very disciplined. I helped organizing in many activities. I am very kind and polite to the helpers in my school. I always had positive attitude. I kept my school clean by not littering trash around the school.

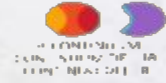

★ My contribution to society-

I don't pollute. I am very responsible citizen. I follow the traffic rules and tell my friends to follow the same. I love animals and do not no harm them. I am close to nature and planted saplings

- IB Continuum World School

My Story

Maheen

★ Introduction (basic information about yourself, family and friends)-

I am Maheen Anis Khan, a girl studying in grade 5 in NES International School Mumbai. My dad's name is 'Anis Khan' and my mom's name is 'Shirin Khan' and I am very lucky to have such loving and caring parents. Some highlights of my personality are the positive ones which are I am risk-taker, creative, friendly when it's time to meet my friends and quite sporty as I like gymnastics, athletics. I haven't told you of my negative points yet....well some of my bad points are that I am a bit ,I get easy angry sometimes and etc.

★ Early childhood-

- Infancy (2 months- 1 year)

I was born on 26th July 2010, at 12:05 p.m. Unlike every child my birth was marked by me crying loudly and greetings all around, congratulations!! you've got a baby girl. I was clean and wrapped in a bright white cloth and handed over to my parents. The first place I visited other than hospital was my granny's home.

Throughout my infancy, I was a cranky, irritable child who used to sleep in day and awake all night. I would barely lie on the bed unattended. I always wanted someone to carry me or keep rocking. I had all my milestones on time. The first thing being I started noticing some colours moving in front of my eyes. Then, gradually I started to see and recognize my mom's pretty face. Soon, I started raising my head and turning sideways. My mom says the first words which I spoke were "abba". This was how I kept growing.

★ Early childhood-

- Toddler (1 - 4 years)

When I became 1, it was the time when I had learnt to sit on my own. I used to enjoy the view by sitting rather than just lying on the bed. I started to speak my name, though it was unclear. I began taking my baby steps and no matter what could be stopped at a place more than a second or 2. Whenever my mother used to put me in a walker I used to run and feel as if I was flying. One of my achievements during my early childhood was I won a crown just like the Miss World ones but that was for winning the cute baby contest. My weaning period started, when I was 1 year nine months and the first thing which I started eating was 'dal soup' and then tomato soup, ragi pudding, dalia and got those what my mother bought all the time and put it in my mouth. I was a child who could not sit at a place and finish her food. My mom tricked me and made me have my meals. As I grew up, the most important thing was about to begin 'the hunt for my school' which no doubt was finalized by my parents. I was dressed and was lovingly dropped by my parents to my new school. I can't forget the anxiety I had and the butterflies in my stomach, throughout the route to school. Finally, with that scared look I entered the school gate and was warmly welcomed by my teacher. I then started going to school and loved my teachers and made many new friends and soon, I enjoyed going to school.

★ Early childhood-

- Heading towards adolescence (10 -19 years)

As I grew 10, this was yet another step towards my adolescence. Though I am not totally aware of what exactly would be changing in me as an adolescent. But here are a few striking changes I saw in my personality. At this time of my life, there was a huge pandemic and everything changed. School was online, classes online, talking with friends online. Nearly everything was online. I had to deal with both my adolescence and the pandemic at the same time. I grew up as a matured girl.

I started to choosing my own stuff. I am an extrovert person! There are a lot of things I like and that I don't like. I like to have fun with my friends, I love gymnastics and singing, but what I really love is perfection. The things I don't like are tomatoes, another thing I don't like is sweets not even cake for me it taste horrible. The biggest things I hate in this world is....to be BORED!!!!Just saying this word makes me really sick. Throughout the adolescence I have had some obstacles in front of me which I tackled and in some which my mom cheered me up and this was my life till now..

★ Traits and accomplishments-

My traits are that I am an extrovert person and a good speaker. I am even very creative and try to add this trait of mine in every task I do. I am even a compassionate and fastidious person. I have a mild temperament. We all have some accomplishments in our life and so do I and here it comes. I am not gloating but my first, surprisingly, came to me very early when I was 1.I won a cute baby contest and got a crown just like miss world. This made mom a winner, and she got a prize too. Then as I grew up and started applying for SOF and was a champion of it I have around 20 medals from it and even been a part of the 2nd level. I once was at rank 11 in India in Maths Olympiad. In my Cambridge exam and always got 5 out of 5 points.I am even a certified game developer, this is one of my latest achievements. These were some of my traits and achievements!!

★ Future plans(goals) and dreams-

I want to become a singer because singing is my passion and my way of expressing myself. Though, my future plans sometimes change as I grow and my thoughts change. We all have dreams and hope it to get fulfilled have dozens of dreams and some of them are I want to be famous around the world. I wish to fly around the world. I want to become an expert something. I wish to be a celebrity. I want to do something for my parents and more.....

★ My Principles-

We all have some principles in my life and so do I some of them are “Honesty is the best policy,” Honesty leads to a fulfilling life. Honesty is not just telling the truth. It's about being real with yourself and others about who you are. Being truthful makes special bonds, and lying breaks them. Next principle in my life is “Let Go Of Worry, Fear, And Anxiety,” Just let the bad things go and focus on happiness and don't worry, get fearful it's just like you want to harm yourself. The 3rd principle is “Happiness comes from within,” The biggest fraud sold to mankind is that happiness is attained via success, fame, wealth, or a suitable partner. Yet one need only look into yourself to be happy. Next, "Practice Gratitude," Gratitude means to appreciate what you have in your life instead of what is lacking. Just appreciate someone if you like it or them. The fifth one, "Love yourself, "Love yourself first and everything else falls into line. You really have to love yourself to get anything done in this world. These were my principles which have helped me be a better person.

★ My Attitudes-

“Attitude” by this word I remember a proverb which is “Your attitude determines your altitude” That means having a positive attitude will bring you up higher in life versus having a negative attitude. I always try to follow positive attitudes. Let me share my attitudes with you so here we begin, I am an enthusiastic person, as I always try to think positively and enjoy learning. I try my best in anything I do. I am a person who strongly believes in this attitude of integrity as I demonstrate the quality of being honest. Next, I am very curious and have the curiosity attitude in me because, I have a hobby of asking questions, not silly ones. Independent, I imbibe the attitude of being independent as I think and work on my own. The last but not the least, Creativity!! Creativity, I like this word and inculcate it in my life since I come up with grate ideas using my imagination and make all my work better. The power of imagination is great. I am a believer of these attitudes and try to inculcate them in my life and be a better person.

★ My contribution to school-

School is a place where we all learn, connect and explore. Teachers and the school faculty is always there to help us, contribute the school. I too contributed to my school in small ways and I will tell you about those. First and foremost, I have always been a discipline and punctual child. Next, I respect my teachers and focus in class, which is just a small help for teachers while teaching. Then, I even try to keep my class clean and whenever I see some litter just throw it in a bin, instead of complaining. Then 3rd I always try to be a good listener when ma'am speaks. Fourth one is whatever task is given to me by my teachers I always complete it in the best way. The 5th one is being helpful to my classmates and be there to help when they need it. These were some of my contributions to my school, which I love.

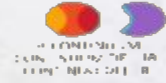

★ My contribution to society-

"Society," an aggregate of people living together. There are some of our responsibilities to make our society like we all dream it to be. If we all make small contributions for it, it will make the mission of making our society like our dream come true. So let me tell some ways in which I have contributed to my society. First is that I never litter not just around my society but wherever I go. and also try to take care my friends and family do the same. Cleanliness is next to godliness!! Next, My parents always helps our neighbors and needy around and this has taught me to do the same and I try to follow it by vouching a few pennies out of my piggy bank. This made me promise myself that when I grow up and start earning on my own I would definitely spend my little share of income with the needy ones. 3rd one is preserving an important resource-water, something we can't even imagine living without but nowadays we waste water and in my society I always use less water, only when required and spread this awareness to my neighbors and friends too. Understanding the importance of this resource, I once tried to spread awareness about it with my friend by gathering people and presenting an act and song which made all of us the water saviors. These were my small contribution towards my big society.

My Story

Darsh

★ Introduction (basic information about yourself, family and friends)-

Hi! My name is Darsh. I stay in L1 102, Lok Kedar, Mulund (W), Mumbai- 400 080 with my mother, father, brother and my two grandmothers. I love where I study after all it a good ranked IB school and the name of the school is Nes International School Mumbai -IB World School, NESISM in simple words. I am always engaged into something or the other like karate, gymnastics, abacus, skating, sachmaas, coding and some more. I am mostly into physical activity using my energy which I am and will never stop using.

★ Early childhood-

- Infancy (2 months- 1 year)

My life began when I was born at approximately 23:00 on 10th April,2010. I was born in Kerala at MIMS hospital in Calicut. At birth, I weighed 3.25Kg. I had black eyes and brownish black hair. I used to love the attention I got from all around as I was the darling of the house. My 1st birthday was celebrated in grand style wherein my parents invited all friends, neighbours and relatives.

★ Early childhood- - Toddler (1 - 4 years)

Some of my favorite toys when I was young were my musical mobile, building set and my pet, Neal (a stuffed animal frog). I also started attending a preschool when I was 2.5 years old. I was very eager and enthusiastic to go to the school. There were activities like playing in sand and swimming in the tub. The caretakers in the school in the preschool were very kind and loving and this made me feel at home in the school.

★ Early childhood- - Heading towards adolescence (10 -19 years)

I consider myself very lucky to be in one of the best IB schools NESISM and would like my parents for making the right choice for me. I really enjoy my school and it is where I feel I can express myself freely. The IB curriculum allows me to understand various topics and allows me to think differently and have my own views and attitudes on topics.

I love physical sports and go for karate, gymnastics, skating and football. Apart from this I also love doing coding and abacus. On the personal front I am very happy to have a younger brother whom I can play with. I intend to be a role model for him and also guide him at every step. I am very happy that he is also in the NESISM school.

I look forward to my future classes and learning more subjects as I grow older. These would definitely help me choose a career as I will get to know the options I have at hand. With the values learnt and responsibilities that come with increasing age I intend to be a responsible person in my life.

Traits

- I am a righty
- I have free earlobes
- When I fold my hands, my right hand comes ahead.
- I can roll my tongue

&

accomplishments

ABACUS --

GOLD MEDAL in MENTAL ARITHMETIC INTERNATIONAL CERTIFICATION (30th June 2019).

KARATE --

GOLD MEDAL in ALL INDIA SHOTO CUP KARATE CHAMPIONSHIP- KATA (state level)-2019

GOLD MEDAL in 2nd NATIONAL KARATE CHAMPIONSHIP -KUMITE (national level) (NOV'19)

PURPLE BELT-2 -KARATE -DO ACADEMY- (SEP'19)

SOF --

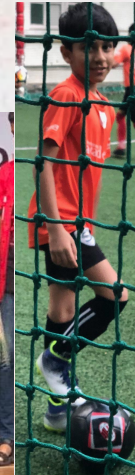

2nd RANK in INTERNATIONAL ENGLISH OLYMPIAD.

selected for 2nd level.

SKATING --

GOLD MEDAL in STATE LEVEL SKATING CHAMPIONSHIP (DEC'19)

selected for National Level.

★ **Future plans(goals) and dreams-**

I want to be a good genius student. I want to learn mechanical engineering. I want to start my career becoming police. Then I want to become a scientist. Then I want to make an AI like Tony Stark, then involving a suit and making it my artificial power. I want to be a hero.

★ **My Principles-**

Love More

Be Vigilant With Your Thoughts

Practice Mindfulness

Regular Personal Development

Attitude Is Everything

Be Of Service To Others

Character Is More Important Than Reputation

Let Go Of Worry, Fear, And Anxiety

Make Peace With The Past

Happiness Comes From Within

Surround Yourself With Great People

Be Here And Now

Practice Gratitude

Practice Acceptance And Detachment

Honour Your Feelings

Discover And Live Your Purpose

Be Kind To Everyone You Meet

★ **My Attitudes-**

Honest

Trustworthy

Caring

Responsible

Respectful

Thoughtful

Independent

Kind

Loyal

Fair

Safe

★ My contribution to school-

Follow school rules and regulations from the back of your mind. When passing through the school class, staff room or corridor, turn off unused lights. Regardless of whether it is a teaching staff or a non-teaching, I always try to respect and maintain a good relationship with all the employees of the school. Participate in all activities and make my own ideas and suggestions as much as possible. Treat the property of the school as my own property. Just like worrying about my house, I do the same at school.

★ My contribution to society-

I spread awareness in society about social causes.

I plant trees and preserving trees.

I do not use plastic and also make others aware of the evils in using plastic.

I educate my neighbours about green houses and their harmful effects.

I keep the school or college building and surrounding neighborhood clean, picking up the litter and putting it in the trash can.

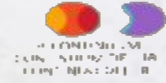

I keep a check on reducing energy and water consumption.

Every time I leave the classroom, I ensure the lights and fans are switched off.

I avoid leaving the tap water running.

NES International School Mumbai
- IB Continuum World School

My Story

Prishti

★ Introduction (basic information about yourself, family and friends)-

My name is Prishti I am 10 years old. I had shifted from Mumbai to Delhi and recently I shifted back to Mumbai. All the friends who are younger to me are-Yashvi , Vrushti , Arav , Rayn , Japleen , Shivansh and Shivika.

★ Early childhood-

- Infancy (2 months- 1 year)

I use to a lot with my soft toys. I myself used to look like my soft toy doll so when I stayed with my soft toys my mother used to get confused.

★ Early childhood-

- Toddler (1 - 4 years)

I liked to play teacher. I used to sing lot of poems. I loved to sing and dance. I also loved to go to the park and play.

★ Early childhood-

- Heading towards adolescence (10 -19 years)

Around this age I made a lot of friends. I made baking videos. I learnt how to bake

★ Traits and accomplishments-

- My traits are- recessive and dominant.

I have accomplished making a YouTube video. I won a prize in a singing competition

★ **Future plans(goals) and dreams**

My dream is to open a Bakery house My plan is to- learn baking items and open bakeries all over India.

★ **My Principles-**

- No cheating
- Being honest
- Having discipline

★ **My Attitudes-**

Whatever situation might come I will always be happy, and I will face it.

★ **My contribution to society-**

I never litter the road. I save water.

NES International School Mumbai
- IB Continuum World School

My Story

Mysha

★ Introduction (basic information about yourself, family and friends)-

My name is Mysha and I am 10 years old. My birthday is on 7th July. I live in India. My hobbies are to draw and to do gymnastics. My mother's name is Payal/Munira and my dad's name is Munzer. I do not have a sibling. I study in NESISM. My passion is to draw (pencil sketches in particular). My favorite colors are black, pink and blue. I love to play with my dolls. My favorite band is '**One Direction**'.

★ Early childhood-

- Infancy (2 months- 1 year)

When I was little, I was a very quiet baby. I would sleep for whole day in the initial few months and as I grew older, I played more and slept very little. My mom says I was a light sleeper. I loved waking up in the middle of the night and play for hours and my parents would doze off around me.

★ Early childhood-

- Toddler (1 - 4 years)

I started walking by 10 months and since then there was never a dull moment in the house. I would grab hold of the furniture and just try to escape. I had like a bunch of friends on my floor, so along with them I would play and eat and have fun. The best memory of this phase is my trip to USA and more precisely to Disneyland. I was on cloud nine then.

★ Early childhood-

- Heading towards adolescence (10 -19 years)

Now I am 10 years old and it is a time when I am heading up to adolescence. And this is a fun stage to go through. When it was my birthday this same year (when I turned 10yrs) I was super excited as it was my first 2 digit number. Now I'm looking forward to see how the rest years of my years in adolescence would be 😊

★ Traits and accomplishments-

My traits:

I will never hurt someone. I will never steal. I am caring. I am kind to animals. I will never say anything bad to anybody or anything.

My accomplishments:

I was gifted a flower garland from my principal sir in one of my gymnastics shows at my school. I got medals for all the races in one of my sports competitions at school.

★ Future plans(goals) and dreams-

When I grow up I want to become an artist. And I want to work hard towards what I want to become and work hard to achieve my dreams.

★ My Principles-

Being loyal
Never lie
Try everything at least once
Never harming nature
Respecting my parents
Do what feels good
Not using people for my own benefit

★ My contribution to school-

I have given some books which I had finished reading to my class in the 3rd grade.

★ My contribution to society-

Me and my friend worked on a school project in which we had to represent something about saving the earth. So we both made a show in our podium. In that we had prepared for 'saving water' so we made 2 parts. In the first part it was about two girls trying to save the water and actually care for it. In the second part it is two girls who don't care about saving the water and they just throw plastic in it.

Many people had come and that's how we made an influence.

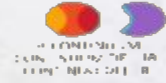

★ My Attitudes-

I like to help people. I like to make friends. I will never do anything wrong. I will always try best.

NES International School Mumbai
- IB Continuum World School

My Story

Nairit

★ Introduction (basic information about yourself, family and friends)-

My name is Nairit Vora and I study in NES International School. So I love to code and do math but I am not so good in games like cricket and I like staying indoor and create apps and games, not going out to play. I have a friend named Samarth and talk about it like if we created the game then what we would add new things in that. In my family there's my father , mother, sister and me. So my fathers profession is a dentist but I didn't decide what will be my profession and my mother is also good, she helps me in my studies and encourages me to take part in many exams. My sister is a good companion for playing and often she helps me to get the T.V remote.

★ Early childhood-

- Infancy (2 months- 1 year)

So when I born I lived 3 years I my old home and then we shifted to a new home. So we had 2 floors and 5 bedrooms. I slept in my parents bedroom and it was lots of fun. So I played with my brother and he got me stitches once. I had another brother who was in his middle school that time.

★ Early childhood-

- Toddler (1 - 4 years)

So that's my first time I had played video games when I was 4. I was going to my new home when I was 3. It took 1 year to build it . I started my first school when I was 2 years. I started to ask many question like "why it is like that?". When I played pretend I took the mac of my mother opened a word document and typed and then erased.

★ Early childhood-

- Heading towards adolescence (10 -19 years)

I am really excited to go to adolescence as in that we will be able to learn new things and have a wider opportunity of learning. I can know more things. I will be able to explore more and find the subject that I am interested in. I can think better. I will be stronger and can deal with hard situations.

★ Traits and accomplishments-

I can create an calculator and video games. I won a silver medal in my gymnastics classes. I made a rock paper scissors game which we can play with the computer. I won a check of 250 rs in mathematics.

★ Future plans(goals) and dreams-

I want to...
become computer scientist.
have a nobel prize.
make my YouTube channel famous.
meet famous people.
become the youngest entrepreneur in the world.
do charity.

★ My Principles-

I am caring, risk take, knowledgeable, thinker and communicator.

★ My Attitudes-

So when I see somebody needs help in studies I help them. I try to take risks which will bring the tomorrow brighter. I think a lot and share my thinking with all others but sometimes they get tired of listening my voice as I talk a lot. I can be comfortable talking with anyone.

★ My contribution to school-

Keeping sincerity and being active and interactive in every class.

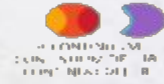

★ My contribution to society-

By staying home and preventing this virus and not wasting food and water.

NES International School Mumbai
- IB Continuum World School

My Story

Nysa

★ Introduction (basic information about yourself, family and friends)-

Hi! My name is Nysa , I was born on July 20 2010 and I am 10 years old..I was born in Mumbai. I have 1 grandparents, 1 parents and 1 real brother. My dad is an engineer and my mom is a housewife. My hobbies are to do drawing and painting. My school name is Nes international school Mumbai. I study in 5th class. My favorite subject is maths and literacy.

★ Early childhood-

- Infancy (2 months- 1 year)

When I was (2 months – 1 year) that time I used to crawl in the house and even go to the kitchen on my own behind my mom and eat food. My early childhood was super good, I was very naughty in my early childhood.

★ Early childhood-

- Toddler (1 - 4 years)

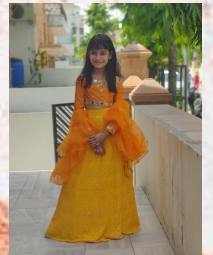

When I was (1- 4 years) I used to roam around the house and everyday I used to do some easy exercises and dance steps easy. It was very fun. This was my fun early childhood.

★ Early childhood-

- Heading towards adolescence (10 -19 years)

Many changes take place during adolescence. Prominent among these are physical changes ,including puberty, and social and psychological changes, with development of reasoning skills, rational thought, and moral judgment.

★ Traits and accomplishments-

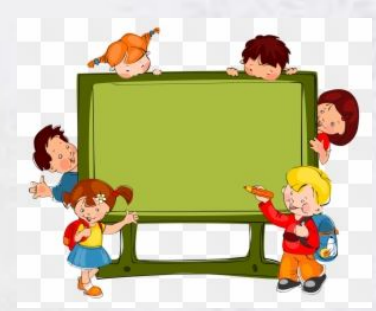

There are many good characters traits that impact happiness. Many such as :

- Honesty
- Loyalty
- Respectfulness
- Responsibility
- Humility
- Compassion

Fairness and much more. Integrity. Integrity is a personal trait that has strong moral principles and core values and then leading life with those as your guide.

Something that has been achieved successfully is called accomplishments

- Being able to pursue interesting, high – quality work that has a positive impact.
- Securing awards, promotions and other acknowledgements of achievements.
- Maintaining a happy and healthy family life as well as a career.
- Exercising leadership, authority and influence.

My Story

Anvi

Hello everyone, its me Anvi Sharma and today I will tell you my autobiography till 10 years(Right now).

★ Introduction

I was born in a nice family where there were 3 people. My mom, my dad and my sister. My sister was 2 years old that means she was 2 years older than me. My mom was an artist and my dad a businessman.

My sister was Harshita and she did not know who was I . My mother would take care of me and my sister would stare at me. Soon, she got used to me.

We lived in a beautiful bungalow and we lived very nicely.It was in Thane.We had many visitors when I was born and when it was my birthday or someone else's.

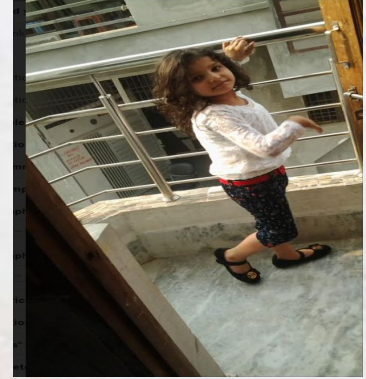

★ Early childhood-

When I was 2 months, I played a lot in my garden. I remember these all things as we have many videos.There were many stuff toys of a cat, dog and a giant muffin.I liked them all.My mother would shoot many videos of me roaming around here and there and once, I wore a black cat costume and she made a video.You can see it on the right.I always was in my mom's back as I liked her a lot.My sister went in mother toddler and I waited for her.Till then, I played and I always wanted to be with my mother.We went to our native place, Delhi whenever there was a holiday.We have a beautiful bungalow there.

★ Early childhood-

When I was nearly 3, I went in NESISM where, the first teacher I got was Priyanka mam. She was a very loving teacher and she took care of me. Then, I went in Reception, Foundation, Grade 1, 2, 3, and 4. As I grew up, I got more knowledge. I went in many hotels, birthdays and a lot of places. The best place I liked was Manali, where there was snow! There were even SOF Olympiads since I was in Grade 1. In grade 2, I came 1st in NCO, in Grade 3 I came 2nd in NSO and 1st in NCO. In grade 4, I came 3rd in NSO, 3rd in IMO.

★ Early childhood-

Now that I am 10 years, I am in grade 5. The schools were going all well when the pandemic, Covid-19 happened. Now, we do online schools but still, all is well. We submit our homework on managebac and do our classes in zoom. I wear mask and go outside in my car. All our relatives and us still go in places where there is protection, but we keep a distance from each other. There are advantages at staying home. Now the whole family will be together.

★ Traits and accomplishments-

In SOF Olympiads, grade 2, I came 1st in NCO, in Grade 3 I came 2nd in NSO and 1st in NCO. In grade 4, I came 3rd in NSO, 3rd in IMO.

★ Future plans(goals) and dreams-

Short term goals-

I will work hard for my SOF Olympiads. I will improve my handwriting.

Long term goals-

I will be a businesswoman and make many cafes and much more just like my father.

★ **My contribution to school-**

In random acts of kindness, I give food, clothes to donate. I never make my classroom dirty. I submit my task on time.

★ **My contribution to society-**

I plant plants in the garden to make it green. I never throw garbage on the playground.

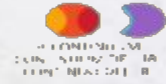

★ **My contribution to school-**

I respect my school and have contributed few things to it. When I was in 1st grade I was selected in running to represent my school. The race was known as SFA I got gold medal in front of 600 people it was a state level competition. I have always been selected in sports and me and my team also came 3rd in dodgeball last and last to last year.

- IB Continuum World School

My Story

Krupa

★ Introduction (basic information about yourself, family and friends)-

My name is Krupa Sulakhi. I have a family of seven members my younger sister, my parents, my maternal, paternal grandparents and I. Moreover, I also have a few friends in school as well as in my residential society. Apart from that ,I have many relatives to elucidate, my aunts, uncles and cousins.

★ Early childhood- - Infancy (2 months- 1 year)

As told my mother , I turned when I was 2 months old . I tasted egg at 3 months and loved it .After completing 4 months my mom understood that I am allergic to banana .When I was 5 months old , I started sitting. I never crawled. I stood at the age of 11 months and started walking 12 months without support . I was put in school when I was 12 months old . My first school was Tree house –Vikhroli (playgroup). I had a toy horse called Badal , I used to ride on him , he was my favourite.

★ Early childhood-

- Toddler (1 - 4 years)

I bagged my first prize when I was 15 months old for saying –I love my India and for enacting like Bal Gangadhar Tilak at fancy dress competition .

At 2 years I started getting fascinated towards stars a lot and started questioning about Sun and Moon to my parents . I used to love to go to beaches , play in sand and make sand castle . I used to love to wear funny ornaments and dance. After completing 2 years My father introduced my to Laptop .

At 2.5 years I narrated the story of germination in front of school . I started watering plants . It was my daily routine . My dadi used to ask me to read simple words from newspapers . I used to love my Nanu , as he had taken a lot of pain for my holistic development right from childhood and Nani used to ensure that I get the best food whenever I used to visit their house .

On sports day I won first prize in potato race .At the age of 4 years I got blessed with a talking princess , my loving and caring sister Gyanada , my Gunduli .

★ Early childhood-

- Heading towards adolescence (10 -19 years)

From 5 years , my formal education journey began .I was already in first standard , a grown up girl got 1st prize in chess at interschool level .Then spell bee started , my favorite competition .In first exam I just got 72 marks, but it was without studying , I understood that if I put efforts I can score well , I became more focused and then century became possible .

Since we were grown up, for vacation we started having international trips , we went to Singapore . I and my sister got passport , immigration visa, learnt About international travel. My mother got extremely happy when I got 3rd prize in spell quest at state level (3 standard) , but she was in Dubai at that time . I missed her .

I gave my 1st formal speech at NESISM on independence day –PYP grade 4. Again I missed my mom . As she was outside for her office work although my father was always with me. I stood second in India for space science Olympiad level 1 and I started heading towards astronomy , my dream .

During the pandemic I am at Bangalore as my father is been transferred to Bangalore but blessed that I am still a student of NESISM and I am returning to Mumbai in coming months

★ Traits and accomplishments-

My most essential trait is perseverance. I have a good sense of humour, as I make my family laugh, and I also an excellent swimmer. In addition to this, I can perform various dance forms, such as, Jazz, Ballet, Hip-Hop and Salsa. I consider myself a strong believer in creating history.

My accomplishments are firstly, I am a consistent medal winner of Olympiad, Spell bee international, Spell quest, Netlas and Mental math . Secondly, I also stood 2nd in India for Space science Olympiad. Thirdly, I was a dance star perform(step and style dance academy) at the age of 5 . Fourthly, I completed Beginner's level at Jazz Dance form. Last but not the least, I won the 2nd prize in local drawing competition held on Independence day 2018 and also stood 15th in a all India talent research competition.

★ Future plans(goals) and dreams-

My future goal and plans are that, I will go ahead at study astronomy in depth, and then I will become a successful astronomer.

My dream is to contribute in Indian astronomy.

★ My Principles-

My principles of life are punctuality, hard work, be vigilant with my thoughts, respecting elders and teachers and being kind to young ones.

★ My Attitudes-

I have a go getter attitude. I am always positive and happy go lucky go .I prefer to be with my team and love to lead my team however I am a good listener too .

When I don't get the results I expect , I try to introspect myself and improve on my mistakes .I always compete with my previous performance and try to elevate myself to next level

★ My contribution to school-

In my short stint of the school period so far , I have always ensured to imbibe the best values from my teachers and principal.

During the lockdown , within the period of two months studied hard for space science and stood second in India in space Olympiad exam (level 1) and made my teachers proud of me .

I have always ensured that from my behaviour and from my from my interactions with outside world , I will leave an impression of excellent student of NESISM .

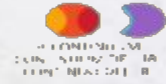

★ My contribution to society-

I contributed to the society by collecting money for a charity event organized by my school and I am always ready to lend a helping hand to my society.

- IB Continuum World School

My Story

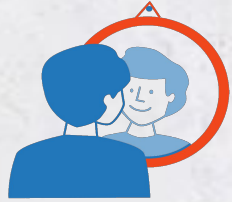

Yojeet

★ Introduction (basic information about yourself, family and friends)-

I was born on 4th April 2010 in Thane, India to my parents Manish and Priya Temkar. They were living and working in Basel Switzerland when my mother was pregnant. Then they came to India and I was born in Thane. We have many close family relatives and my Mom was the eldest amongst all her cousins and I was the 1st baby born in the family after a long time and hence everyone was very happy.

We lived in Raheja Gardens Complex until I was 1 year old and then we moved to Melbourne, Australia due to my fathers job. When I was 3 year old we came back to our home at Raheja in India and I started my Preschool at Rainbow and completed my kindergarten at Lodha world School. From grade one I am studying in NES International School Mumbai.

During these years I have made several friends in my Complex like my close friends Arnav, Saiam and Vihaan and others like Smith, Viom, Manant, Reyansh, etc. And friends from my school like Samarth, Nairit, Pratyush, Kanishk, Ayush and Hridaan.

★ Early childhood-

- Infancy (2 months- 1 year)

My parents always say that I was a happy jolly baby who loved to play a lot and giggle. I had curly hair and brown eyes and I never stayed at one place. Both my parents were working hence I used to stay at day care centers from the age of 8 months. My 1st day care centre was Brain Works, where I stayed for 3 hours a day. I crawled everywhere and was never still. I learned the word “Teacher” at this centre. My Parents tell me that I had developed a habit of calling all as “Thechaa”.

When we moved to Australia over there I was in another daycare called “Eltham College Kids” Initially I stayed there only 2 days a week. When my mom got a job I used go there on all 5 days. At this day care we did a lot of activities like painting, reading books, playing different games, playing outdoors, riding cars and bikes, clay moulding, singing and dancing. They used to have a great Christmas Party on their big terrace with barbeque, hot-dogs, music, dance, bouncy castle, ice lollies, cakes and chocolates. They used to maintain a photo book for each child and pasted pictures of all activities the kids did. We still have my books from this centre.

★ Early childhood- - Toddler (1 - 4 years)

I spent the toddler years of my life, in India, then Australia and then back to India. I learnt a lot of new things due to my exposure to different countries and cultures and the time I spent in different day care centers with children coming from different countries. My plenty of childhood photos tell me how much I have travelled and enjoyed different trips to different places in Melbourne, Sydney and India as well.

I like my childhood video of me running alone into a big flock of pigeons while on a trip to Sydney. At my Melbourne Day Care on the animal day, they got actual baby animals from the zoo, to show us and I was holding a baby tortoise in my hands. Then while in India, I had won the 1st prize in a fancy-dress competition in Jr.Kg for becoming a traffic signal, which my mom had made. I remember my preschool graduation day at Lodha World School, where I wore an actual robe and a graduation hat and received my certificate. It was like winning a prize and I was very excited about joining NES International my new School.

★ Later childhood-

- From the age of (4 -10 years)

From 1st grade I am in NES international school Mumbai. In my 1st grade I made new friends and also got introduced to IB curriculum. I also understood the concept of UOI. I got introduced to powerpoint presentations in my 1st grade itself. I made my 1st presentation on the topic of “How a Toy Factory works”. In the same year in the science fest I made a science project on air pollution.

When I was in 2nd grade I won my first science fest prize for the project “Reduce, Reuse & Recycle”. In grade I had developed lot of interest in science subject and I use to read a lot related to science like books, articles, science TV shows and videos on youtube.

When I was in 3rd grade, I got interested in electrical circuits and I also made my first circuit “on / off” circuit with bulbs and motors. I also got a snap circuit kit and learnt more circuits with it. But in grade 4 there was no science fest, but I got selected for the OSMP.

Right now in grade 5 we are learning all our subjects online because of the covid-19. This has been a different experience and lot of learning about use of technology in education. We have used Zoom meeting for online class room, Wakelet for online library, Managebac for online HW & Assessments and created Interactive Journal in google slides.

★ Traits and accomplishments-

Over these years I have developed a lot of interest in Subjects like Science & Technology, mainly physics and Computer Science and especially Coding. I have learnt to code in Scratch, Code.Org and Python. I have coded small game projects and calculation based projects.

I started with learning electrical circuits when I was 8 years old, mainly through parts from my old broken cars. This interest further grew into robotics, and I had a chance to learn with Arcom Robotics through my School. I had also joined Children Tech Center at Thane and have made several electrical projects, like a manual phone charger, Plant water detector, solar power-based LED and Fan motor, door bell alarm and so on.

I won some prizes during these years like 3rd Prize for my “Recycling” project in grade 2. Then 1st prize for Zoetrope project in grade 3 and also 1st prize in quiz competition. I also got the “Best Academician in Grade 3”.

★ **Future plans(goals) and dreams-**

I love Science, Maths, Robotics and Coding and hence I dream to become a robotic engineer and make robots to solve human problems.

★ **My Principles-**

I will always be humble.
I will always be patient while working.
I will never give up on anything.
I will always treat people equally.
I will be responsible towards the environment.

★ **My Attitudes-**

I take things seriously.
I am active in my studies.
I always tell the truth.

★ My contribution to school-

I have thought of a project for the school it is called "School Currency ". By this project, the children can do there studies and earn school money (not real money) and that can be spend in the school campus it self for books, food, activities and so on. Thus can be used to teach children about money management .

★ My contribution to society-

Saving fuel

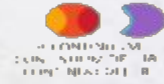

When I die, I will donate my eyes.

Plant a tree

My Story

Jai

★ Introduction (basic information about yourself, family and friends)-

My name is Jai Gala. I am 9 years old. My mothers name is Poonam Gala. And my father' s name is Hitesh Gala. I have 5 sisters and 2 brothers.

★ Early childhood-

- Infancy (2 months- 1 year)

I was a very healthy child. My mother took care in my infancy hood, be it from my birth (5-1-2011) to my first birthday (5-1-2012).

★ Early childhood-

- Toddler (1 - 4 years)

After crawling I took a first step in my toddler hood. I stood I fell en-number of times, but I did not lose hope. I found this very interesting, felt like a bird how had wings.

★ Early childhood-

- Heading towards adolescence (10 -19 years)

As I was growing by age, I was also growing by size. When I was growing by age I saw many changes in my body and I also was getting more and more of knowledge. As I am in 5th grade now after some months I am going to go to MYP 1 which is the sixth grade. I enjoy my school.

★ Traits and accomplishments-

Traits- I focus on my studies.

Accomplishments- I have mostly finished all of my homework.

★ **Future plans(goals) and dreams-**

When I will grow up, I want to be a “Mechanical Engineer” because I have very much of interest in bikes and cars. I want to make different cars which nobody has made. I also want to make a bikes which are full of technology. I will try to make some eco friendly vehicles so that it does not affect the environment.

★ **My Principles-**

As I am small, my principles are to be focused on my studies, whether it's school's studies or it's extra classes.

★ **My Attitudes-**

My attitudes are very kind and I am very positive to my friends. I never say anything bad to my friends.

★ **My contribution to school-**

As I go to such a good school , I have such good teachers because they are still taking the efforts to teacher us during the pandemic, so I thank all the teachers and our founder principle who is Dr. R. Varadarajan sir.

★ **My contribution to society-**

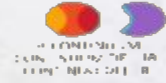

I have accomplished many awards like medals in sports meet, trophies in annual day, competitions like rubrics cube.

By this I have made my society proud of me and proved that I have the ability to get some awards.

My Story

Joanna

★ Introduction (basic information about yourself, family and friends)-

My Family

I am Joanna Pravin Malal. My mother is Saino Pravin. My father is Pravin Philip. My grandfather is Philip Malal George. My grandmother is Molamma Philip. My brother is Joel Pravin Malal.

My Friends

My best friends are Harleen and Aanya.

★ Early childhood-

- Infancy (2 months- 1 year)

When I was an infant I learned to smile, roll over, sit up, wave clap, crawl and even say some words.

★ Early childhood-

- Toddler (1 - 4 years)

As a toddler I started standing and walking. I even enjoyed music which my mother used to play on the recorder. I even started identifying and imitating people around me. Later I enjoyed simple games, songs, and rhymes, and also started learning colors, shapes, and alphabets and numbers.

★ Childhood- - (5 - 9 years)

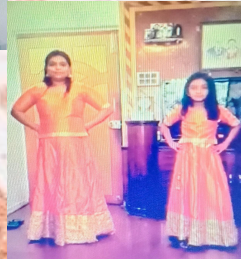

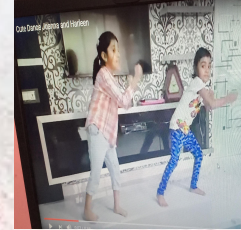

When I started my school I started loving drawing and painting which I still love to do. Going to school made me understand concepts of numbers, write alphabets, words and later on sentences in English, French and Hindi. I also learned to co operate and share. I started taking part in various competitions and games through which I got many prizes also. My interest in dance led me to join bharatnatyam classes which I enjoy very much. I even joined singing classes.

★ Traits and accomplishments-

Since childhood I love drawing and painting. My interest in singing and dancing is still exists. I would like to continue my hobbies and excel in them. My interest towards cooking has developed recently so I would love to cook different dishes .

★ Future plans(goals) and dreams-

As I grow and keep on practicing what I love to do, I want to become a singer and an excellent dancer. My first love towards painting also wants me to become a famous painter.

★ **My Principles-**

I love your family and friends. I never give up. I follow your dreams.

★ **My Attitudes-**

I am positive.

★ **My contribution to school-**

To win different prizes for school in painting ,singing and dance in inter school competitions.

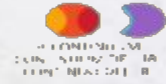

★ **My contribution to society-**

To be a good person and help others.

My Story

Kayaan

★ Introduction (basic information about yourself, family and friends)-

My name is Kayaan Goswami I am a 10 years old boy. I live in a joint family with my Mother, Father, Sister Aunt and cousins. I have many friends and my best friends are Dev and Parth. We used to live in the same society but now as we have shifted, I meet them on weekends.

★ Early childhood-

- Infancy (2 months- 1 year)

I was a very cute fair baby with curly hairs. Everyone used to call me Malinga. I was a healthy baby. When I was learning to walk my father bought me a blue walker which had musical toys on it. I used to walk all around my house with it. Liked fruits and curd a lot. I most of the time used to play with my granny.

★ Early childhood-

- Toddler (1 - 4 years)

When I learnt walking properly I used to go to the garden with my granny or mother. I started going kindergarten when I was 3. I made new friends and learnt many new things such as rhymes, alphabets, numbers and colouring. Sometimes in evening my uncle used to take me for a bike ride and buy me an ice cream. At night I used to play boxing with my father.

★ Early childhood-

- Heading towards adolescence (10 -19 years)

I am excited that I have to be an independent person now and going to higher grades it will be a great experience.

★ Future plans(goals) and dreams-

I am very passionate about football. I will develop my skills to the best to become the best football player.

★ Traits and accomplishments-

I am a very active sports person. I have been participating in every sports meet in our school. I have achieved many medals and certificates in running and other sports competitions. I was selected for inter school skating competition. I was also selected for football tournament held in Goa first runner up.

★ My Principles-

I do not cheat anyone. I do not hit anyone without any purpose.

★ My Attitudes-

I talk politely to everyone. I care about everyone. I follow my principles. I ask many questions.

★ My contribution to school-

I have won many medals in sports and other activities in the school. I have taken part in competitions from the school like chess, S.V.B. competitions and etc.

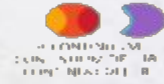

★ My contribution to society-

I have participated in many tournaments of football and cricket and won trophies and medals and I like to go in tournaments.

★ Early childhood-

So when I was 4 years old I didn't know that much but I know I was in kindergarden and my mom

and dad would take me and my brother to lot of vacations.

So now I am 10 years old its lockdown its super boring we do do school online and to be honest I like normal school better.

★ Traits and accomplishments-

My accomplishment and goals are that me and my friends came third in the science fair and many more prizes

★ Future plans(goals) and dreams-

My goals are to be a pilot or a youtuber or a basketballer.

★ My Principles-

My principles are that I would not ever trouble my teacher in class. I would keep my video on in online school and also not lie to anybody.

★ My Attitudes-

My attitudes are that I am a thinker and I am a risk taker.

★ My contribution to school-

I will contribute my school by sharing the school name.

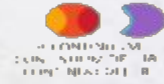

★ My contribution to society-

I would help the companies that do environmental stuff and also I would not waste water not litter and etc.

My Story

Rutvi

★ Introduction (basic information about yourself, family and friends)-

My name is Rutvee Kadam. I was born on 7th January 2010, I was born to Sheetal Kadam and Rajesh Kadam. I have a little but annoying brother Adrit Kadam. I was born in Thane. I am studying in Nes International School for the past 7 years. Now I'm in 5th grade!

★ Early childhood-

- Infancy (2 months- 1 year)

So basically my birth story is really hard and I had to undergo many procedures which were insanely hard. I was going to be born at 11:30 a.m, that time my parents had a lot of tough time because I wasn't responding in my mums tummy now the real reason. Minutes before my birth I had actually uhh pooped in my mums tummy and was near on death rate because I had breath that poop water so this is actually disgusting but life-threatening.

★ Early childhood-

- Toddler (1 - 4 years)

I had asked my parents about this and they said that i was even more naughtier than my brother and they also said I was very had to take care of as I mentioned earlier I was naughty. But, one this is I used to love going to my neighbour and watch tv with them, play games, etc. And hey when I was 4 my little brother was born I was on cloud 9! (But, sadly I'm very upset as he is growing up) .

★ Early childhood-

- Heading towards adolescence (10 -19 years)

So, right now I'm 10 years old I will be 11 years old soon and I'm very excited as I'm going to soon be going into Adolescence! And I can't wait for what is going to happen ahead!

★ Traits and accomplishments-

My accomplishments are that since the last 2 years I have been getting outstanding students award (I don't know whether if we are going to have the 4th grade Annual day). But I'm very proud of what I have achieved.

★ Future plans(goals) and dreams-

My goal is to make everyone smile and happy and my dream is to make my name popular and clear.

★ My Principles-

My principle is disciplined and open minded.

★ My Attitudes-

My attitudes aren't very great at all, sometimes I'm very angry, most of the time I'm happy. I don't really know, but I quite know for sure is that I'm happy most of the time.

★ My contribution to school-

I have won a lot of awards from it and also I have been in many drives.

My Story

Hridaan

★ Introduction (basic information about yourself, family and friends)-

My name is Hridaan. I am 9 and half years old. I was born on 23rd of December 2010. I study in NESISM 5th standard. My mother's name is Avni she is born on 12th October 1984 and is almost 36 years. My father's name is Ajit he is born on 25th April 1982 and is 38 years. I have many friends in my school e.g. Ryan,Rehaan,Daksh,Pratyush,Ayaan,Samarth etc.

★ Early childhood-

- Infancy (2 months- 1 year)

When I was an infant I didn't even know what I am doing. I do not know much about my infancy.

★ Early childhood-

- Toddler (1 - 4 years)

I learned how to talk at the age of 1 and half years and learned how to walk at the age of 2. At that time I stayed in Dadar West and use to go to a nursery called tree house. My parents played a lot with me compared to now. I also saw a lot of cartoons and loved doing any art and was very creative.

★ Early childhood-

- Heading towards adolescence (10 -19 years)

I am really excited that I am heading towards adolescents as at that time I will grow up. Also I will be going to MYP that is the middle year programme. I will be disappointed that I have to leave PYP also. When I will be in the adolescence stage I will have a lots of work to do.

★ Future plans(goals) and dreams-

I want to become a CA and an Investment Banker and go in the field of commerce as my father is also a CA. My goal is that I want to do something for my country and make it come on a higher level. I also want to donate and help poor people. So these are some of my future goals and plans.

★ My Principles-

My principles are like I am knowledgeable as I know many things also a communicator as I talk a lot. I am a reflector as I always like to reflect things.

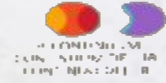

★ My contribution to school-

I respect my school and have contributed few things to it. When I was in 1st grade I was selected in running to represent my school. The race was known as SFA I got gold medal in front of 600 people it was a state level competition. I have always been selected in sports and me and my team also came 3rd in dodgeball last and last to last year.

My Story

Diya Patel

★ Introduction (basic information about yourself, family and friends)-

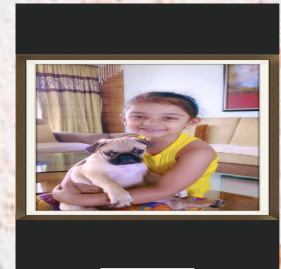

Hello! My name is Diya Patel. I am 10 years old. I also have a younger brother. He is 4 years old he also goes to NES (our school) with me his name is Dheer. My mom's name is Vibhuti and my dad's name is Prakash. My favourite food is Waffles and my favourite colour is white. I have many friends like Maheen, Arpita, Niiddhi, Siyona, Avika etc. My favourite subject is literacy. My home room teacher is Kirti ma'am. I know we have to do online school we all miss our friends and teachers but our teachers work hard to make online school fun.

★ Early childhood-

- Infancy (2 months- 1 year)

I still remember at my 1st birthday I had a 6 layer cake. I had a friend called Jiya when I was 3 years old we are still in touch. I remember always praying to god to get a brother and guess what I got a baby brother. I always used to water the plants. It feels good to bring back all those memories.

★ Early childhood-

- Toddler (1 - 4 years)

Now what do I remember being a toddler. one day we were to Goa I was so excited. Then I would always be on the beach I would cry that I did not want to get out of the beach you all must be experienced being a toddler beach was everything. I loved my childhood.

★ Early childhood-

- Heading towards adolescence (10 -19 years)

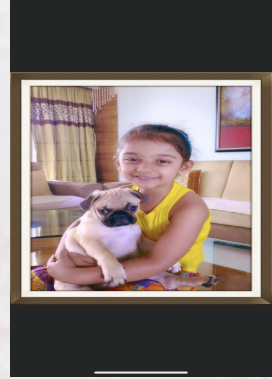

So once we were using a ferry to get to Alibag. Then we would come back driving, but there was a twist we reached Alibag, but from there we made a plan to go to Goa directly as my dad anyway had a meeting there. Let me tell you that the road there was rough.

★ Traits and accomplishments-

I am a thinker and also caring and friendly. I am loads of fun. I have won a dance trophy I have won lots of trophies medals etc. in sports drama and other subjects.

★ Future plans(goals) and dreams-

I want to become my father's heiress. heiress means after the particular person retires the heir or heiress takes in charge.

★ My Principles-

Try try until you succeed
Take up another's burden as your own
Forgive frequently

★ My Attitudes-

To be positive and work hard each day.

★ My contribution to school-

My contribution to the school is that I will complete my homework on time I will unmute unless and until it is my turn and I will be interactive and disciplined.

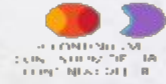

★ My contribution to society-

My contribution to the society is I will not litter it. We will follow the rules. We will have 6 foot distance. We will always use the three golden words that are thank you, sorry and please with all the watchmen and liftmen etc.

My Story

Ayanna

★ Introduction (basic information about yourself, family and friends)-

My name is Ayanna Hansaria and I am born in United States of America and I am eleven years old. My hobbies are dancing, speaking, singing, and art. I love to play with my friends and I like to play games too. I like to do other physical activities such as yoga. My family includes three people My mom, my dad and me. and the rest like my grandmother and my grandfather who passed away. I Have a lot of friends from abroad too.

★ Early childhood-

- Infancy (2 months- 1 year)

Of Course I don't know what i used to do when i was 2 months old but i believe i used to crawl around and have fun and at age one years old i started to walk at halloween night it was a miracle since one day my mom was downstairs distributing candies to the people to trick or treaters at my house .

★ Early childhood-

- Toddler (1 - 4 years)

I loved to dance and i used to go with my mom to the park regularly. I joined preschool at the age of 3. I loved my preschool.

★ Early childhood-

- Heading towards adolescence (10 -19 years)

I am 11 years old. I am very curious to know what will happen in the future. But my mom and teachers have helped me understand a lot about the change in our bodies and minds as we grow .

★ Traits and accomplishments-

I got the award of the best orator when I was in grade 3. I have also won a certificate of the most creative invention when I was in kindergarten. I also know how to cook a few dishes.

★ Future plans(goals) and dreams-

When I grow up I would want to be a youtuber or an Astrologer. My dreams I would love to come true is to be a very famous person when I grow up.

★ My Principles-

I believe one should always work hard, I feel people should always be truthful. Also I am honest and I obey my parents.

★ My Attitudes-

I have a very positive attitude. I am confident and I have a pleasing personality.

★ **My contribution to school-**

I participate in all programs of my school and I participate in my class discussions.

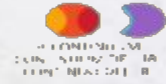

★ **My contribution to society-**

I am law abiding citizen of society i follow all the rules. If someone needs help my parents and me help them.

My Story

Kanishk

★ Introduction (basic information about yourself, family and friends)-

I am Kanishk and I will tell a little about myself. I am 10 years old and I stay in Thane. My hobbies are sports and coding.

★ Early childhood-

- Infancy (2 months- 1 year)

I used to live with my maternal grandparents till I was 7 months old. I was a travel baby. My parents would take me to many places.

★ Early childhood-

- Toddler (1 - 4 years)

I was a very naughty child 1 to 4 years. I would remove all clothes from my wardrobe and throw them in the floor. I joined playgroup 1.5 years old. I didn't cry on the first day of my school like other kids and I enjoyed it.

I joined a new school when I was 3.5 years old.

★ Early childhood-

- Heading towards adolescence (10 -19 years)

Now I am 10 years old and I enjoy cycling, coding, playing with my friends.

We have went out a lot and I have had fun, like when we went to Alibaug, then we went to a villa, and then we went to a resort. I had a lot of fun.

★ Traits and accomplishments-

I am a good boy, I am innocent, I am a game developer, also I am a nerd.

★ Future plans(goals) and dreams-

I have not planned what I will do in the future.

★ My Principles-

I am thinker, risk-taker and caring.

★ My Attitudes-

I am angry, stubborn, kind to other people and I am an introvert person.

★ My contribution to school-

I always attend the school on time, I have always took part in sports and other activities.

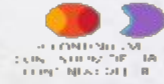

★ My contribution to society-

I ride cycles, not bikes and scooter and from that I can prevent air pollution.

My Story

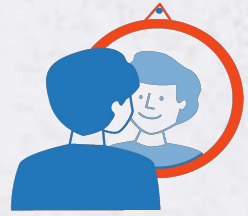

Ryan

★ Introduction (basic information about yourself, family and friends)-

My name is Ryan Shah and I am eight years old. My mother's name is Natahsa and my father's name is Sagar. I live with five people in my house (including me). I have a pet dog.

My birthday is on 19th July 2010.

★ Early childhood-

- Infancy (2 months- 1 year)

I was born in Breach Candy hospital 5 days after I was born my dad bought a BMW. That time I used to live in a building called Titan it was very big me and my brother Rehaan shared one room.

★ Early childhood-

- Toddler (1 - 4 years)

After a year I was born my father and mother took me to many places like Bangalore Lonavala and London. When my and my brother were three years old, then my father decided to take me and my brother to a swimming pool . It was our first time in a swimming pool, unfortunately, me and my brother hated the swimming pool.

★ Early childhood-

- Heading towards adolescence (10 -19 years)

Right now every person who is in school have to do online school on zoom. Right now in this pandemic you can't do a lot of things. So my daily routine is to do school in the morning, then have my lunch, After I finish my lunch then I play games on my Ipad. When I finish my Ipad time then I do homework. Once I finish my homework, I read a book. Usually cricket IPL match comes every day at 7 : 30 so I watch it because I love cricket.

★ Traits and accomplishments-

My traits are that I am punctual and don't procrastinate like my maternal grandfather and mother. My body structure is like my dad's when he was a kid.

My accomplishments are – I got level 1 and level 2 of outstanding student leader of the year in grade two and three. I represent my school in athletics YMCA competition.

I have participated in state level in chess.

★ Future plans(goals) and dreams-

My goals are – To become a successful businessman and to receive enough money for my family.

My dreams – I want to have enough money to take care of my family and to have a good family with a dog named Bruno.

★ My contribution to school-

I represented the school in athletics in a competition called YMCA. I will spread the news about how good is this school.

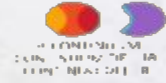

★ My contribution to society-

I will spread the message that how good this society is and the homes are good too. I will even donate some toys and books to some people in the society.

My Story

Niddhi

★ Introduction-

Hey guys! I am Niddhi Bhadra and I am 10 years old. My mother's name is Mamta and my father's name is Anil Bhadra. There are 8 members in my family and we all live together. I want to become an astronaut in future. I study in NESISM school and have five best friends: Arpita, Siyona, Aashna, Naina and Namita.

★ Early childhood-

I spent my childhood in Singapore with my father and mother. My grandparents used to visit us every two months. I wanted my grandparents to do everything for me. One fact about me was that I never cried in my childhood. I used to love going for shopping. The first word which I learnt to speak was mamamama. I used to always try to crawl by myself. I spent most of my time with nature and in garden. My hobby was to do monkey jumps and I loved to play with dogs. I am still that naughty as I was in my childhood. I loved to do gymnastics and best thing is that I am really funny. My 10th birthday was celebrated in a wonderful way. The theme was disco. I have the most loving and caring family ever.

★ Traits and accomplishments-

My accomplishments are winning a lot of trophies and being an agentic learner who is ready to learn at every time.

★ Future plans(goals) and dreams-

My dream and my future plan is become an astronaut. My goal is to take India to next level in everything.

★ **My Attitudes and Principles-**

I always speak truth and follow guidelines (principles).

My attitude is caring, sharing, open-minded, risk-taker and knowledgeable.

★ **My contribution to school-**

Participating, being a good and agentic learner are my contributions towards NESISM school.

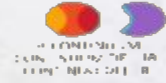

★ **My contribution to society-**

Educating my counter parts, helping the needy and following the rules are my contribution towards my society.

My Story

Vivaan

★ Vivaan-

11: a.m, I entered the day the world my parents and family awaited 8 months for me and finally I came. When I was going to my house, my parents gave me a present by gifting me a car.

My first birthday was memorable and an epic one. You must be thinking why. It is because my parents booked the whole society ground and invited everyone in our building. There were all kinds of street food, toys and magic show.

I boarded my first ever flight when I was 2 years old. Can you imagine a child sitting in a flight for 4 hours to go to Dubai??

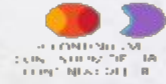

After 2 years, I went to Singapore. With rapid passage of time, I became 8 years old. When we got our summer vacation, my dad told me that we are going to Denmark. After coming back, I joined Karate. After few practices and hard work, i won brown belt and won fitness competition.

Now, today, I am here writing my own story...

My Story

Pari

★ Introduction (basic information about yourself, family and friends)-

My name is Pari Chauhan and I am 10 years old .I learn in NES international school. I have a family of 10 people and in joint family. And my father and my uncle has a shop of gold. My mom and my aunt is housewife. I have 3 best friends in my society and in my school I have 6 friends.

★ Early childhood-

- Infancy (2 months- 1 year)

As I was 2 months so I use to get vaccinated every month.2 to 7 months I use drink milk and after that I started eating light food.and when I was 1 year there was a grand birthday and I got many toys as gift etc.

★ Early childhood-

- Toddler (1 - 4 years)

When I was 2.3 years I started my kindergarten in the school Chitter Chatter. And also when I was 3 to 4 years I use to love my birthdays so much .And I had my favourite toys like doll rubber phone etc which I have now also.

★ Early childhood-

- Heading towards adolescence (10 -19 years)

As I am 10 years so I am in 5th grade and I learn new things in my school. In 2020 there was a virus called coronavirus which is still now that because of that we are all at home and we are having online school. But now everything is slowly getting over.

★ Traits and accomplishments-

My traits are I am good at dance, I am polite. I am also good at numeracy.
My accomplishments are. I won many trophies.

Thank
you!
